**and**

**we are receiving checks as well.**

**Thank you for your participation!**

# Advocacy

Indivisible Lancaster County is a group of Pennsylvania neighbors organizing to promote freedom and democracy and to oppose fascism in the U.S. We believe every American should stand up and speak out in this moment of authoritarian breakthrough to defend our core values - freedom of speech, the right to peaceably assemble, freedom of the press, the right to free and fair elections and due process for all.
